<sup>1</sup> Civil Money Penalties (CMPs) – a monetary federal sanction against nursing homes that fail to comply with quality care requirements.

<sup>2</sup> As reported by CMS. For more detailed information contact the FOIA Officer at CMS at 212-616-2220. This list is posted on LTCCC's website every three months.

<sup>3</sup> Date of initial survey. In some instances the facility may have been revisited.

<sup>4</sup> Facility still has Independent Informal Dispute Resolution (IIDR) and/or Appeal rights related to the fine imposed. IIDR is a right provided under the 2010 federal Affordable Care Act that allows facilities that have been found to have failed to meet minimum standard to dispute the deficiencies that led to the imposition of a CMP. The law also allows for CMS to collect and place the imposed CMPs in an escrow account pending this process.

<sup>5</sup>Amount reflects a 35% reduction as the facility waived its right to Appeal as permitted under law.

<sup>6</sup> Fine imposed in accordance with settlement agreement between CMS and the facility.
