TAKE ACTION NOW **Protect the Legal Rights of Family Members**
Ensure Accountability When a Resident Has Died After Nursing Home Abuse or Neglect

This bill provides an important clarification of the rights of family members and legal representatives of nursing home residents who have been the victim of serious abuse, substandard care or neglect. It is necessary to reconfirm an essential part of New York's Public Health Law which has been erroneously interpreted by some courts to pertain only to residents who have been harmed, and not their families or representatives when the resident has died.
