The screenshot shows the Medicare Nursing Home Profile page for the Hudson Valley Rehab and Ext Care Facility. The page is titled "Nursing home profile" and has tabs for "General information", "Health & fire safety inspections", "Staffing", "Quality measures", and "Penalties". The "Quality measures" tab is selected. The facility's name is "HUDSON VALLEY REHAB AND EXT CARE FACILITY". The overall rating is 4 stars (4.0), which is "Above Average". The address is 260 VINEYARD AVE, RT 44/55, HIGHLAND, NY 12528, with a phone number (845) 691-7201. The distance is 6.4 miles. The facility has 203 certified beds and participates in Medicare and Medicaid. The quality measures section shows a rating of 4 stars (4.0), which is "Average". There is a "Show Graphs" button. The table below compares the facility's performance to the New York average and the national average.

	HUDSON VALLEY REHAB AND EXT CARE FACILITY	NEW YORK AVERAGE	NATIONAL AVERAGE
Quality measures	4.0	3.8	3.8

We do not generally give much credence to quality measure ratings, since most of them are **self-reported** by the facility and **unverified for accuracy** by the state or federal governments.

However, if you are looking for a specific measure, they might be of interest (see next slide).

There are numerous quality measures for both short-term and long-term residents. Here you can see how they appear for each facility.

Again, it is important to remember that (for the most part) they are self-reported and not verified by the state.
