Previous programs and resources are available at
www.nursinghome411.org/hudson-valley-programs

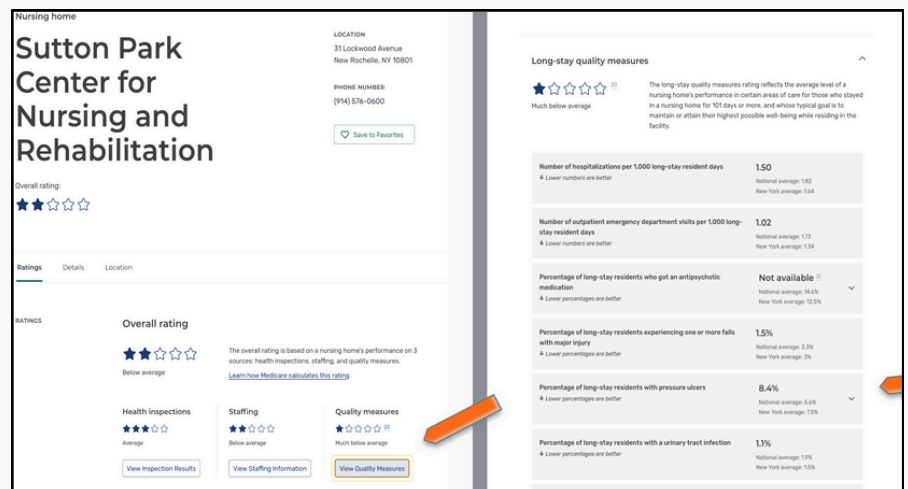

FEBRUARY 2025

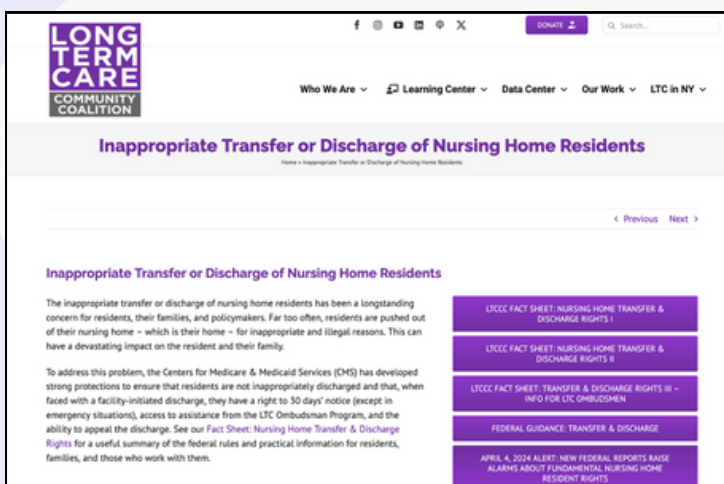

We explored how Hudson Valley nursing homes compare on nurse staffing - and why staffing matters. For example, 5-star facilities had 64% more nursing staff than 1-star homes. We also discussed how for-profit homes tend to staff significantly lower than non-profits or government-run facilities.

APRIL 2025

We examined pressure ulcer (bed sore) prevention, which is a key indicator of care quality. While some wounds are unavoidable, most can be prevented with proper staffing, nutrition, and attention. We shared how to use public data to check your facility's pressure ulcer rates.

Facility information posted on Medicare.gov April 2025

JUNE 2025

We broke down when and how nursing homes are allowed to discharge or transfer residents. We discussed troubling cases of "resident dumping" and explained how to appeal and fight back. We also shared key resources, including our resident rights fact sheets and more.
